

CODE ALERT®

Nurse Call Solutions

Quick Response®

Wireless Call Solution

Keeping people safe since 1987

When your residents need assistance

provide them assurance and confidence that help is on the way. Quick Response® Wireless Call Solutions create a secure, home-like environment with improved resident safety and reduced liability.

Meet Community Needs

Our scalable solutions offer communities a cost-effective way to implement wireless nurse call solution.

- Custom-designed solutions tailored to support your workflow & reporting needs.
- Systems are scalable to meet your needs for years to come.
- Flexible alerting options and escalation paths improve caregiver response times.
- Smart ID™ technology provides room- or area-level locationing.

Increase Resident Confidence

Discreet call devices enable residents to call for assistance from anywhere.

- **Pendant:** Pendants are worn around the neck, wrist, or hooked on clothing.
- **Pull Cord / Push Buttons:** Stationary call devices are affixed in restrooms and common areas.
- **Call Cord:** Improve assistance allowing residents to activate call from their bedside.

Reliable & Intuitive Software

Quick Response® provides residents peace of mind that they can call for help wherever they are.

- Made for nurses, by nurses software enhances staff efficiency and person-centered care.
- Discreet, aesthetically pleasing wireless call devices help create a secure, home-like environment.
- Pendants promote mobility with coverage extending outdoors for safety in gardens, courtyards, patios and walking paths.
- RFT CARES Enterprise app alerts staff directly on mobile devices to claim alerts, and enable staff-to-staff messaging.

Resident Safety

Classify Alarms Quickly
with touch screen computers

Cover the Entire Campus
both in & out of common areas

Locate Residents Instantly
when nurse call is activated

UL 2560 & UL 1069 certification
ensures quality, safety and performance

Room-Level Location

Room-level location identifies a resident when nurse call is activated, ensuring a fast response.

- Resident name, room number, and location are sent to a central computer station
- Configure location based on community and workflow
- Notify staff through a variety of mobile options
- Respond quickly and provide a sense of security to residents and families

All Staff Notification

Escalation paths ensure every call gets a timely response, while silent notification options support a home-like environment.

- RFT's mobile application allows staff to seamlessly receive, acknowledge and classify alarms
- Pagers and Quick Look™ displays provide immediate alerts
- Walkie-talkies and phone systems enable efficient staff-to-staff communication
- Corridor dome lights meet state requirements for visual notification

Data Analysis Software

Resident calls, caregiver response times, and care time are captured and stored within Code Alert software. Reports can be automated or printed on demand

- Improve decision-making, including staffing and training allocations
- Track caregiver performance for continuous improvement
- ADL trends enhance custom care planning and communication with family
- Bill based on care reporting

Provide residents more confidence and greater mobility

with multiple call options. Low-profile device options blend into a community and enable residents to call for assistance from anywhere.

Pendant & Wristband*

Advanced wearable technology automatically issues fall alerts, even if the resident is unable to trigger nurse call.

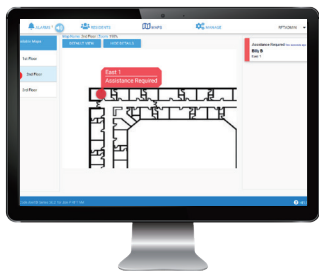

Repeaters & Network Coordinator*

Wireless signals are sent through repeaters, the network coordinator and the central server

Pagers & Phones*

Instant alarm notifications are sent to mobile staff devices

Control Station*

Easy-to-use software accessible through a touchscreen monitor

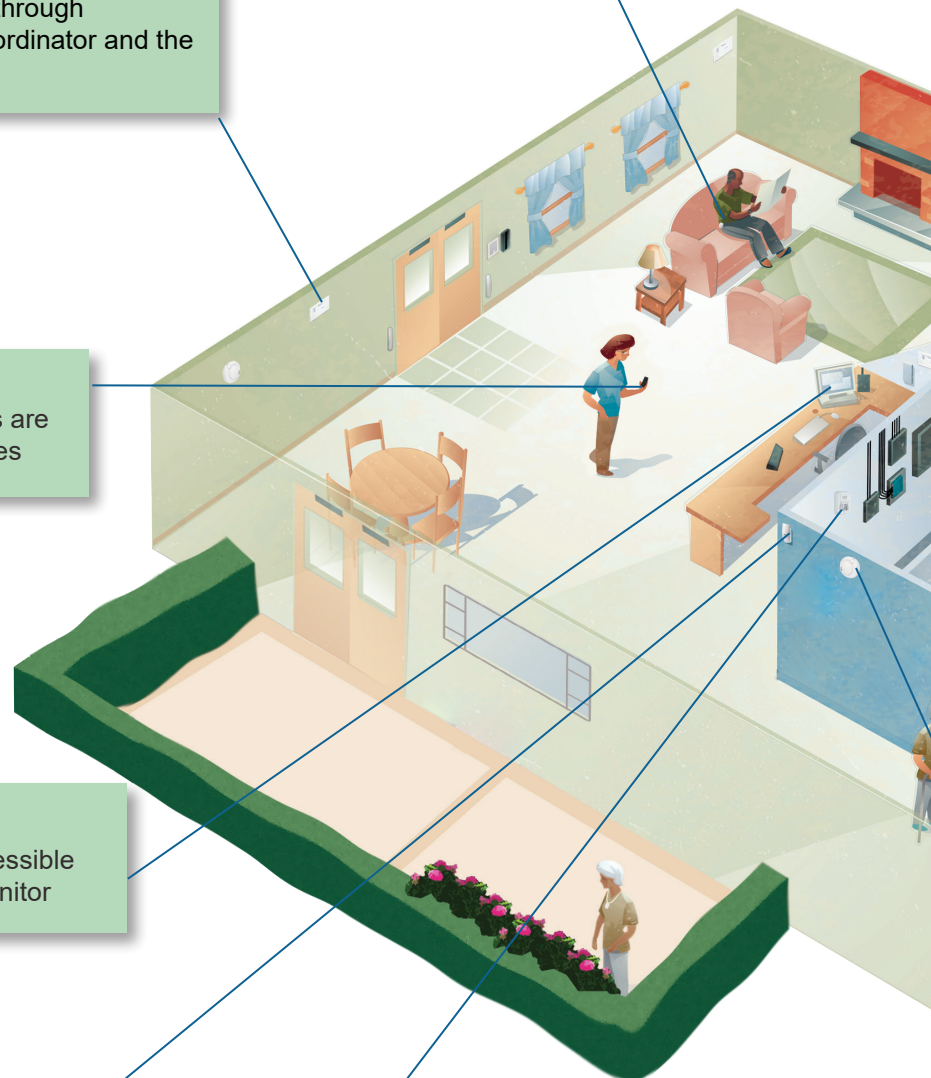

Motion Detector (Plus)

Detects motion in a room or hallway

Single Strobe Light with Sounder (Pro)

Provides notification to caregivers when dome lights outside the rooms cannot be seen

Fall Management (Plus)

Reduce risk of falls; integrates with call system for a local, silent alarm

Pull Cord Call Stations*

Stationary, low-profile call device for rest rooms and common areas; LED confirms a call was placed

Nurse Cord Call Station*

Works with nurse call cords; LED confirms a call was placed; device also alarms on cord removal

Push Button Call Station*

Stationary, low-profile call device; push button to call for help; LED confirms a call was placed

Door/Window Monitor (Plus)

Triggers wireless alert when an unauthorized door/window is open

Dome Light*

Meets UL 1069 requirements for visual notification when a call device is activated

Quick Look™ Display

Discreet LED display shows room number, resident name and event type

Smoke Detector (Plus)

Integrates into call system for additional smoke alarm notification

*Pro and Plus

Create a Comprehensive, Integrated Life Safety Solution

The Code Alert Quick Response Solution integrates with other senior living solutions, helping you save on equipment costs and improve workflow by using the same server and notification devices.

Wander Management Solutions'

compact transmitters monitor residents, prevent elopement, and promote mobility.

Fall Management Solutions

integrate with Quick Response to send alerts when a resident may have fallen.

Expert, In-House Service

You'll receive a complete suite of support services, from our resident safety experts.

- Nationwide service teams deliver prompt, onsite support for peak performance
- Service agreements minimize unbudgeted expenses
- 24/7 technical support
