HELP ALERT®

Staff Protection
Your Safety is OUR PRIORITY

Help at Your Fingertips

The RFT Help Alert system offers an intuitive staff duress solution with features like 3D-iD® pinpoint locating and real-time alerts, ensuring swift response and prioritizing the safety of senior living staff in crisis situations.

Real-Time Locating

Instantaneous location tracking ensures swift response & intervention.

Fast Response

Rapid response ensures safety and security in critical situations.

3D-iD Floor Mapping

Comprehensive 3D-iD floor mapping enables precise real-time location accuracy.

Security Camera Integration

Seamless security camera integration enhances surveillance capabilities for comprehensive safety monitoring.

Discreet Design

Sleek, low-profile design that blends seamlessly with everyday attire, offering discreet protection without drawing attention.

Silent Alerting

Badge functions as a silent alarm, ensuring no audible sound is made when activating it. This discreet feature allows staff to request help without drawing attention.

Two-Way Communication

Providing instant feedback when help is on the way. With LED lights and gentle vibrations, staff are reassured that their call for assistance has been received and help is en route.
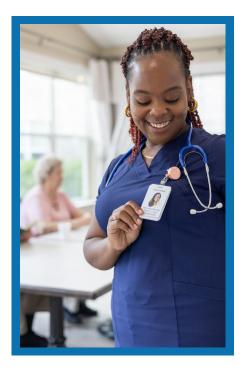

Help Inside & Out

With Help Alert, you can ensure comprehensive coverage both inside and outside your facility, addressing the increasing security concerns in parking lots faced by staff. Help Alert's unique capability sets it apart, offering unmatched coverage that instills confidence and peace of mind.

Help Alert is designed to keep your spaces secure and your staff safe.

Fast Install

Our system offers remarkably fast installation in senior living facilities, typically completing the process within just one week. This efficiency minimizes downtime and disruption, allowing you to quickly benefit from enhanced safety features. The installation process is streamlined with no need for wire pulling, reducing both time and labor costs. Additionally, our solution comes with no hidden costs, ensuring transparency and affordability.

Operating securely without relying on WiFi, our system reduces the risk of compromising your network, simplifying management and enhancing security. Enjoy comprehensive coverage across the entire campus with a reliable and straightforward safety solution.

Know Sooner, Respond Faster, & Cover More Ground
